### *Privacy and Security Training Update*

To maintain compliance with Privacy and Security policies, training sessions were held in June for Privacy and Security Officers at participating sites. The training covered:

- ❖ A refresher on the roles and responsibilities of officers
- ❖ Privacy and Security policies
- ❖ Consent management procedures

Please connect with your site's Privacy and Security Officer should you have any questions or concerns regarding privacy and security.

### *Strata Connect Update*

Based on your feedback, the program is making improvements to the RM&R system. We are planning on upgrading to an improved integration technology standard called Strata Connect. This will result in:

- ❖ Reduced data entry
- ❖ Improved usability
- ❖ Increased referral data availability
- ❖ And much more..

The RM&R Program will be engaging sites throughout the summer to introduce this initiative and begin planning with sites. If you have any questions, please contact us at the email provided below.
