# How do I add Bed Class and RPAB identifiers to RM&R?

## Bed Class

**Step 1**

Add the **Bed Class** in the vacancy name field when appropriate.

**Format:** Floor A-Room A-Bed 3 Class B

| Vacancy Details | Vacancy Comments | Matches | Discharge Notice |
| --- | --- | --- | --- |
| Care Profile | | | |
| Name: | | Floor4-room2-bed2 Class A | ① |

⚠️ **Long-Term Care Home beds structural classifications**

| Bed Class | Definition |
| --- | --- |
| **"New"** | Meet the design standards set out in the LTC Facility Design Manual, 1999 (LTCFDM), 2002 The Retrofit Design Manual, January 2002, the LTC Home Design Manual (2009 or 2015). |
| **"A"** | Beds which substantially meet the requirements of the design standards described in the LTCFDM.  Full compliance with every aspect of the LTCFDM will not necessarily be met in all cases. |
| **"B"** | Beds which well exceed the 1972 regulated nursing home structural standards, but fall short of the LTCFDM. |
| **"C"** | Beds which meet the 1972 nursing home structural standards.  Some Category "C" which have some structural features that exceed the 1972 structural standards. |
| **Upgraded "D"** | Beds which under the D bed Upgrade Program, invested a minimum of $3,500 per bed in the home and upgrade certain targeted areas of direct benefit to residents but do not meet the "C" classification. |
| **"D"** | Beds which do not meet compliance with the 1972 nursing home structural standards. |

## Reunification Priority Access Bed (RPAB)

**Step 1**

Add the **RPAB** text in the vacancy name field when appropriate.

**Format:** Floor A-Room A-Bed 3 RPAB

| Vacancy Details | Vacancy Comments | Matches | Discharge Notice |
