

What is a convalescent care referral form?

What is a convalescent care type

The convalescent care type is used for patients in Acute or Rehab settings who need to move to a convalescent program in a Long Term Care Home. Listed below are all the tabs in the Convalescent Care referral form. The form is to be completed by the Hospital Care Coordinator and medical staff at the sending facility. Please view **'How do I complete a referral?'** for more details on completing a referral.

Client Details (1)

Includes a summary of key information about the referral form, such as Patient name, MRN and responsible person(s) for the referral. This is a standard tab across all referral care types.

Demographics (2)

Includes relevant information identifying the patient. This is a standard tab across all referral care types.

Supplementary Information (3)

Additional patient information including language, ethno-cultural and religion preference. Entering information within this tab may trigger the behavioural and smoking assessment tabs.

EQ/Consent Signed (4)

Questions regarding capacity assessment and confirmation that written consent was received.

Patient Contacts (5)

Includes information related the patient's contacts and if any contacts have Power of Attorney.

Health Assessment (6)

- For applications from the community, this tab is used to acknowledge receipt of completed paper health report and to record the date the health report was updated.
- For applications from acute/rehab/CCC sites, this tab contains information about the patients' health status and is completed by a physician or nurse

Behavioural Assessment (3a)

Includes information related to the patient's behaviour.

Smoking Assessment (3b)

Includes information related to the patient's smoking habits.

Eligibility for Convalescent Admission

Ensures the patient meets the minimum requirements for Convalescent admission.

Client Choice (8)

Identifies the patient's Convalescent Home choices.

Send/Manage Referrals (9)

Includes current referrals associated with the patient and functionalities to send the referral. Please view **'How do I send a convalescent referral?'** guide for more details.

Access to different care type referral forms is set at an organization and user level. Please contact your **Local Registration Authority (LRA)** for details and to request access. If you are unsure of your LRA, please contact the **RM&R program** at rnr_program@uhn.ca
