

What is a long term care referral form?

What is a long term care referral form

Long term care referral applications are referrals prepared for client/patients in the community or in an Acute or Rehab/CCC setting who need to move to a Long Term Care Home program that is well suited for them. Please view **'How do I complete a referral?'** for more details on completing a referral.

Client Details (1)

Includes a summary of key information about the referral form, such as Patient name, MRN and responsible person(s) for the referral. This is a standard tab across all referral care types.

Demographics (2)

Includes relevant information identifying the patient. This is a standard tab across all referral care types.

Crisis Priority Ranking (3)

Allows staff to enter the crisis priority score.

Supplementary Information (4)

Additional patient information including language, ethno-cultural and religion preference

EQ/Consent Signed (5)

Questions regarding capacity assessment and confirmation that written consent was received.

LTCH Matching Profile (6)

Questions that help determine which LTC Homes are suited to the client/patient's needs. Information entered here can trigger behavioural assessment, smoking assessment and eligibility tabs.

Financial Information (7)

Summary of the patient's financial information.

What is a long term care referral form?

Patient Contacts (8)

Includes information related the patient's contacts and if any contacts have Power of Attorney.

Health Assessment (9)

- For applications from the community, this tab is used to acknowledge receipt of completed paper health report and to record the date the health report was updated.
- For applications from acute/rehab/CCC sites, this tab contains information about the patients' health status and is completed by a physician or nurse.

Behavioural Assessment (6a)

Includes information related to the patient's behaviour.

Smoking Assessment (6b)

Includes information related to the patient's smoking habits.

Eligibility for LTCH Admission (6c)

Ensures the patient meets the minimum requirements for Long-Term Care Home admission.

Client Choice (10)

Identifies the patient's Long-Term Care Home choices.

Send/Manage Referrals (11)

Includes current referrals associated with the patient and functionalities to send the referral. Please view **'How do I send a Long-Term Care referral?'** guide for more details.

Access to different care type referral forms is set at an organization and user level. Please contact your **Local Registration Authority (LRA)** for details and to request access. If you are unsure of your LRA, please contact the **RM&R** program at rmm_program@uhn.ca
